I am writing to urge you to reject the NAB petition 04-160. As a subscriber to XM Radio I rely on XM Instant Traffic & Weather. I have been commuting from Southern Maryland to Reston, VA for several years and relying on local stations for traffic. The local stations give you about 5% of the real traffic story and only concentrate on Northern VA and the 270 corridor. Since purchasing XM Radio and listening to XM Instant Traffic & Weather I now get an ACCURATE AND IN-DEPTH traffic. This ensures that I have a smooth commute and get to daycare on time. I made the choice to pay for radio so that I could get good traffic and be able to listen to radio without constant CENSORSHIP!!!!

Again, I urge you to reject the NAB Petition 04-160.
